

A Systematic way to increase the Productivity, Consistency, Reliability of Testing of Transformers of all ratings

Fully integrated automated LV Tests Trolley, acquires data from test instruments, prints report in full compliance with international standards such as IS, IEC, SABS & ANSI.

Benefits of LV Tests Trolley

- Movable across the test floor
- Connection of transformer only once
- Equipped with world-wide acclaimed Transformer Test Bro (TTBro) software for Automatic Report generation with a single click
- Easily store and retrieve data
- Simple but intuitive graphical user interface
- LV TESTS TROLLEY interfaces with TEST BENCH

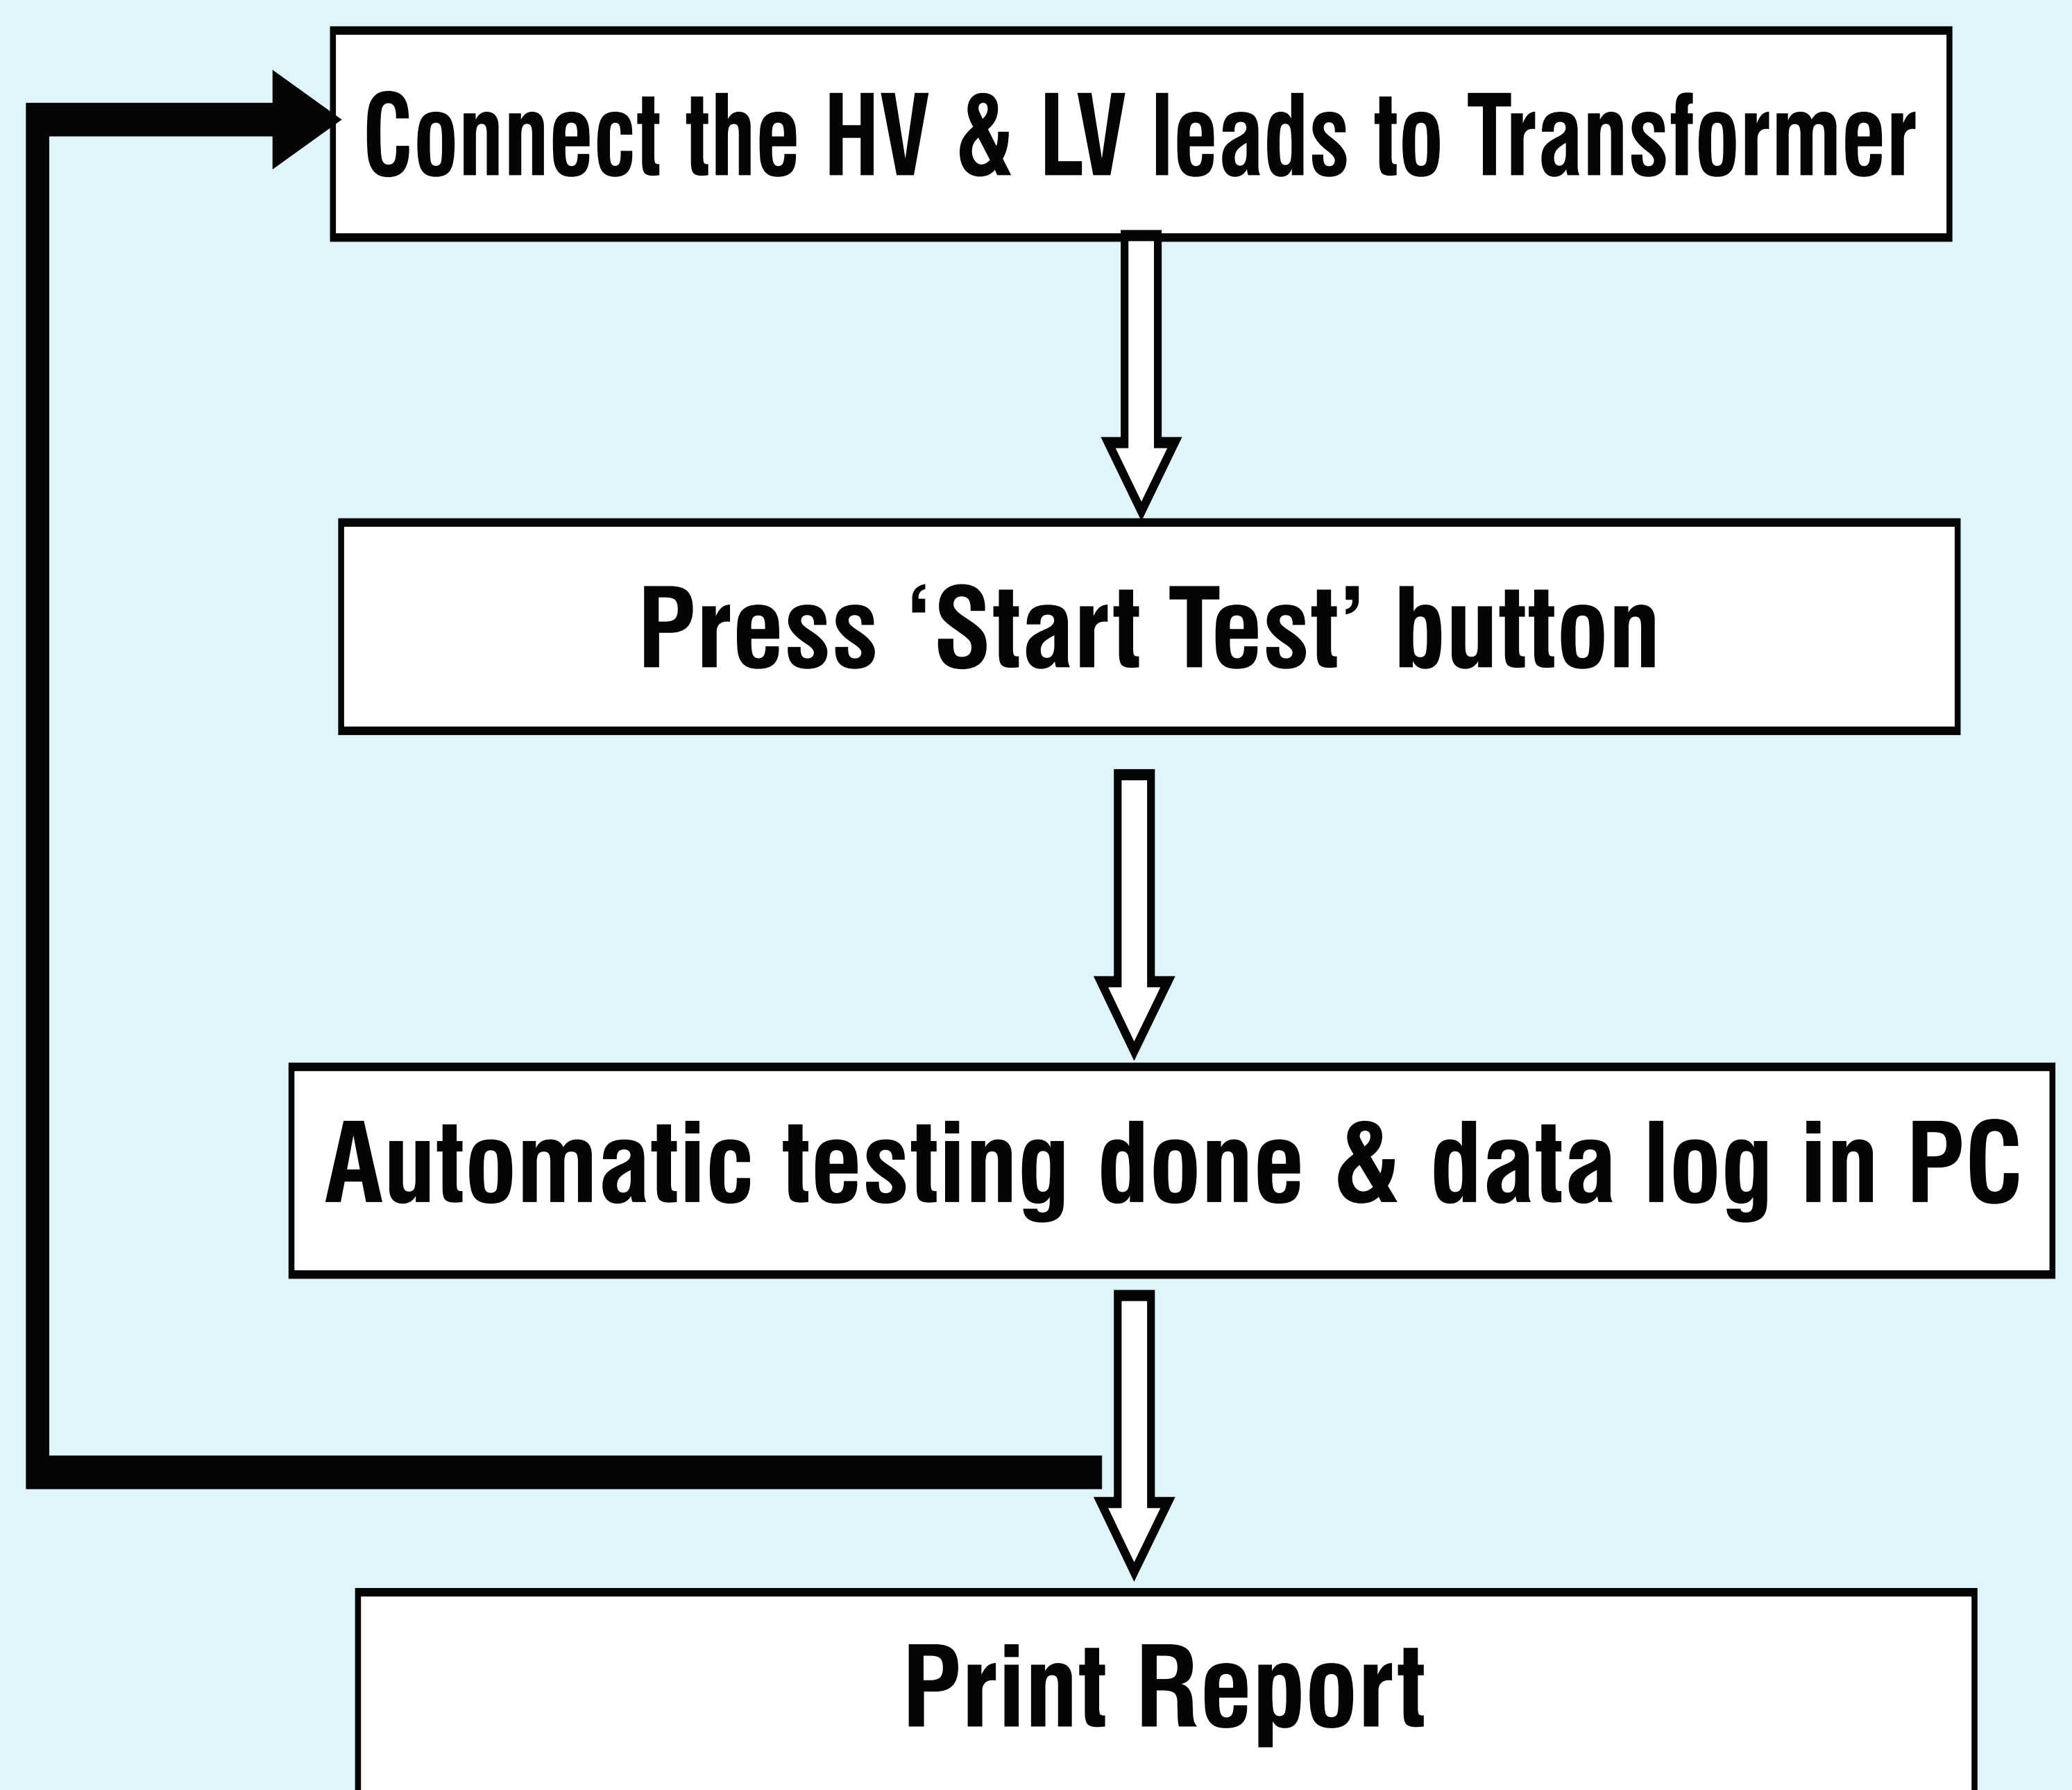

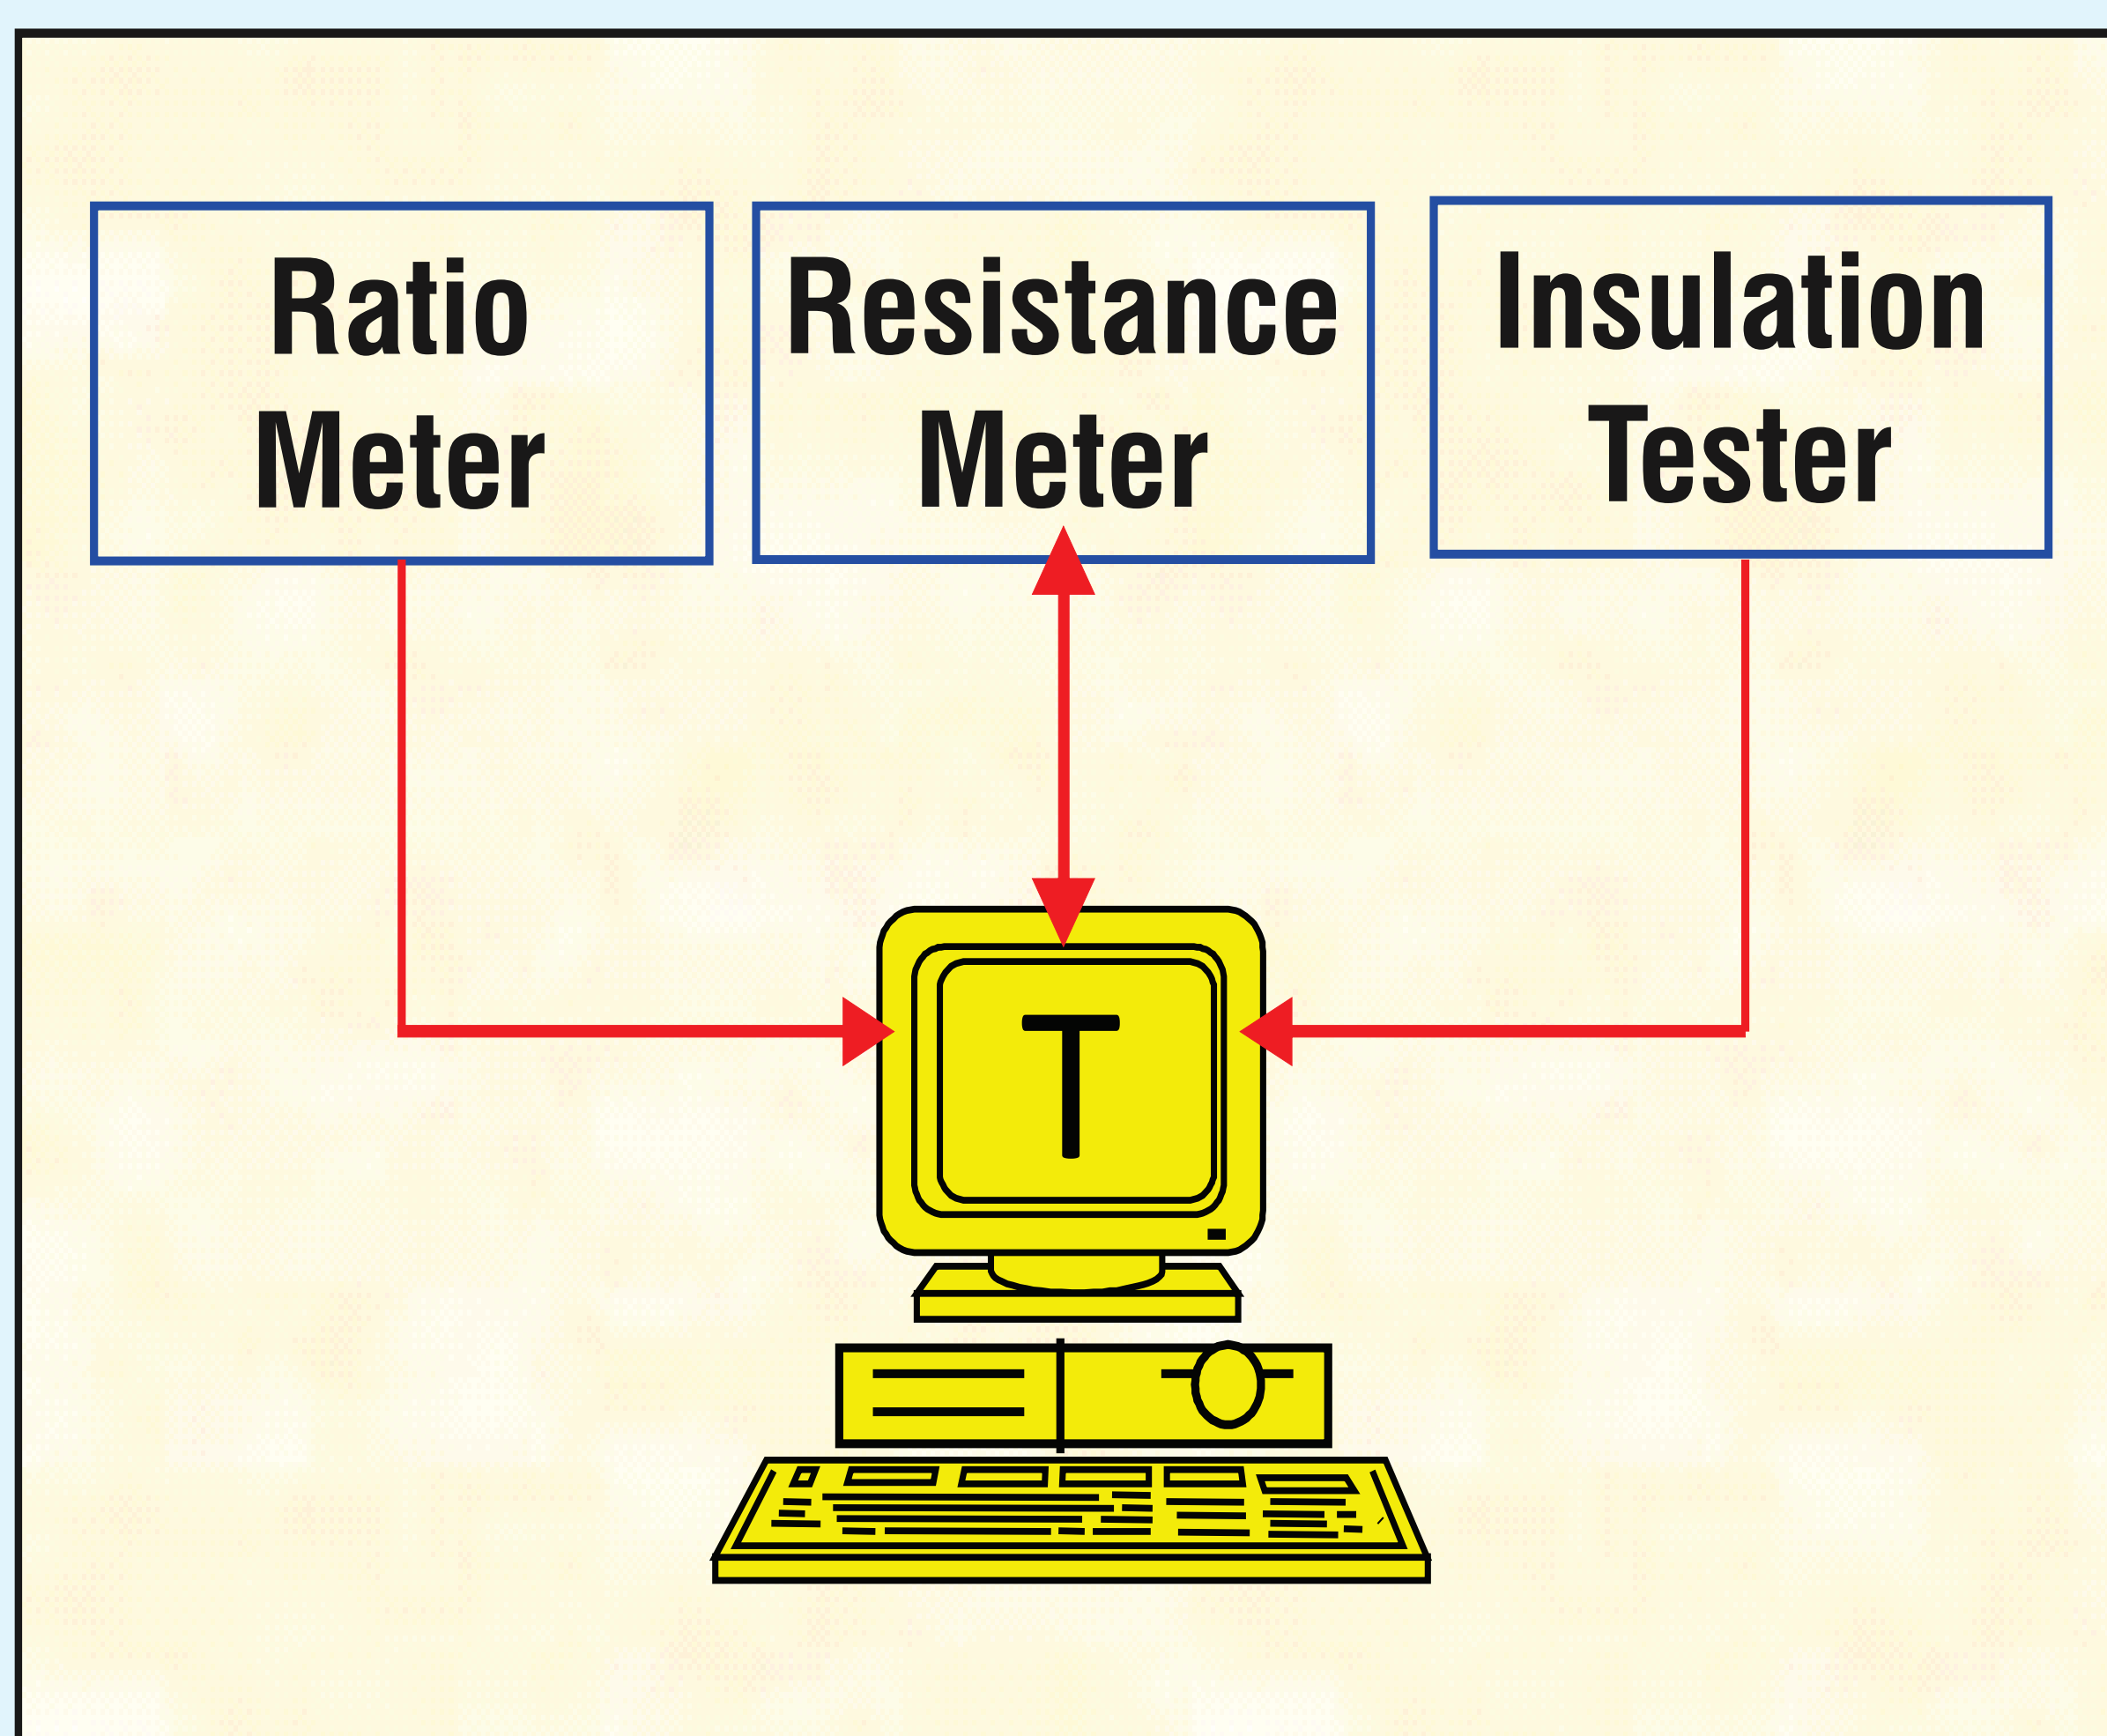

Tests Covered By LV Tests Trolley.

Sr No.	Tests
1	Winding Resistance
2	Turns Ratio
3	Insulation Resistance
4	Vector Voltage
5	Magnetic Balance
6	CT Ratio & Polarity

Instruments on LV Tests Trolley

Sr No.	Instruments List
1	Ratio Meter
2	Resistance meter
3	Insulation Tester

Global Leaders for setting up Integrated & Automated Test Laboratories for Transformers & Motors and Transformer Design Software
